Office Hours: *Monday-Thursday 10am-11am*

Room opened @ lunch on Thursdays

Course Overview

We'll be using Code.org's CS Discoveries curriculum, an introductory computer science course that builds creativity, communication, problem-solving, and collaboration. Students will practice typing skills with Typing.com, create projects in Code Studio, and explore web development while learning how computer science connects to the world around them.

Curriculum

Computer Science Discoveries is an introductory course that builds a strong foundation in computer literacy — skills students will use in this class and throughout the rest of their education in Fresno Unified and beyond. We start with the basics, learning proper typing skills and brushing up on the fundamentals of the Microsoft Office Suite. This class focuses on giving students the tools to navigate technology confidently, troubleshoot problems, and solve complex challenges. From there, they explore programming, physical computing, HTML/CSS, and data, applying their skills to create websites, apps, games, and interactive devices. This foundation equips students to use technology for creativity, communication, problem solving, and lifelong learning.

Unit Topics

Unit 1 - Problem Solving and Computing – Quarter 1

Unit 2 - Web Development – Quarter 2

Unit 3 - Interactive Animations and Games – Quarter 3 & 4

Student Expectations:

- Bring a functional and fully charged laptop to class every day. We will work outside frequently, weather-permitting.)
- Participate in all class activities;)
- Treat others with respect and kindness;)
- Stay at their workstations and not use or touch another student's computer or lab equipment;)
- Be open to exchange healthy, constructive criticism with their peers;)
- Follow the rest of Fresno Unified's expectations and guidelines, including but not limited to Dress Code and Student Behavior
- Cell phones and/or Bluetooth devices are **not allowed** to be used at any time during the class period.
- No eating in computer labs.)
- No bathroom passes the first or last 10 minutes of class.)
- No unapproved video games during class.
- No checking grades in Atlas after the first 5 minutes.
- No applying makeup during class.

Assessment

Assessment & Grading will be based on a variety of class activities, including digital journal entries, review questions, and computer coding projects. All assignments will be evaluated using rubrics provided by Code.org, ensuring consistency and clarity in grading. Students are given ample time in class to complete their work. Any assignment not finished during class is due by 11:59pm that same day without penalty. If a student has an excused absence (such as a medical appointment or school activity), the assignment must be submitted on the day they return. For unexcused late work, the maximum score that can be earned is 60%. Late submissions also forfeit the opportunity to revise or resubmit for a higher grade. Assignments will not be accepted more than one week after the original due date. If a student is absent and does not understand the assignment on their own, it is their responsibility to meet with me or reach out to me to receive direct instruction and clarification

Grading Scale

A+	99.99%
A	85.00%
A-	80.00%
B+	75.00%
B	65.00%
B-	60.00%

C+	55.00%
C	45.00%
C-	40.00%
D+	35.00%
D	25.00%
D-	20.00%
F	0.00%

The Jones Tax!!!

Class time can't be wasted and must be utilized for instruction. So, Mr. Jones will tax any and all students when they're constantly off task such as excessive talking, eating in class, using foul language or just sitting there wasting time.

Also, another point of emphasis that will cause students to get taxed is not paying attention when I'm explaining instructions or giving directions. When they don't pay attention, it causes them to ask me or their classmates the same repetitive questions I already answered. This can cause distractions and slow down the instruction.

Students pay the tax by coming in at lunch or staying in my class after school.

STUDENT AND PARENT SYLLABUS AGREEMENT
Edison Computech Middle School 2023/2024

By initialing and signing on this page, we confirm that we have read and understand the Overview, Standards, and Expectations that are listed in the Computer Science Syllabus provided to us by Mrs. Ellis.

Student's initials	Parent's initials	I understand that:
		Cell phones and/or Bluetooth devices are <u>not allowed</u> to be used at any time during the class period.
		Bathroom passes will not be granted the first 15 and the last 15 minutes of class.
		Students MUST click the turn-in button in MS Teams for the assignment to be considered as turned in, otherwise the assignment will receive a zero in the ATLAS grade book.
		There will be <u>NO extra credit</u> opportunities, instead students may resubmit any assignments one time to improve upon their learning.
		Students will have one week to submit late work without penalty. A max of 70% can be earned on a late assignment if it is received after the one-week extension.
		When a student submits an assignment late, that student has forfeited the opportunity to recover the assignment and they cannot resubmit the assignment for a better grade.
		Students who have an <u>excused</u> absence on the day an assignment is due must submit the assignment the day they return.
		If you are absent it is Your Responsibility to come see me at lunch to get direct instruction if you don't understand the assignment on your own.
		There will be no eating in class. Closed Drinks will be acceptable if they're kept next to their seat or under their desk.

I can also be reached at my email and phone number, listed at the bottom of the page

Students - I prefer contact via Teams, as I monitor it closely and my computer and phone notify me to new messages à

Parents - Email or Parent Square are preferred. I don't use Atlas for messaging as it does not notify me about new messages.
